INDEPENDENT AUDITOR'S REPORT

Board of Directors
City of DeWitt Downtown Development Authority
DeWitt, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the City of DeWitt Downtown Development Authority (the Authority), a component unit of the City of DeWitt, Michigan, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the City of DeWitt Downtown Development Authority as of June 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2016

This discussion and analysis of financial performance provides a comparison overview of the City of DeWitt Downtown Development Authority's (the Authority) financial activities for FY 2015-2016 and 2014-2015. Please read this document in conjunction with the Authority's financial statements.

Financial Highlights

As discussed in further detail in this discussion and analysis, the following represents the most significant financial highlights for FY 2015-2016:

A. Governmental Activities

- Assets of the Authority exceeded its liabilities at the close of FY 2015-2016 by \$473,258.
- The Authority's total net position decreased by \$6,978 as a result of current year activity.

B. Governmental Fund

- Assets of the Authority exceed its liabilities at the close of FY 2015-2016 by \$183,947.
- The Authority's total fund balance increased by \$3,538 as a result of current year activity.

Using this Annual Report

This annual report consists of several financial statements. The statement of net position and the statement of activities provide information about the activities of the Authority as a whole and present a longer-term view of the Authority's finances. This longer-term view uses the accrual basis of accounting so that it can measure the cost of providing services during the current year, and whether the taxpayers have funded the full cost of providing government services.

The fund financial statements present a short-term view which reveals how resources were spent during the year and what resources are available for future spending. Fund financial statements also report the operations of the Authority in more detail than the government-wide financial statements by providing information about the Authority's most significant fund.

The Authority as a Whole

The following table shows, in condensed format, a comparison of net position of the Authority as of June 30, 2015, and June 30, 2016.

Governmental Activities

The Authority governmental revenues totaled \$106,453 with the largest revenue source being property taxes. Property taxes make up approximately 90% of the total governmental revenue.

The Authority incurred expenses of \$113,431 during the fiscal year, the two largest expenses being salaries (\$45,324) and operating expenses (\$32,559). Salaries represent approximately 40% of annual expenses and operating expenses represent approximately 30% if the annual expenses. The Authority continues to pay for utilities related to Christmas lights in the Authority's district and reimbursing the City for work done in the District.

Fund Financial Statements

The General Fund is the chief operating fund of the Authority. During the year the fund balance increased \$3,538 to \$183,947, which represents 179% of annual expenditures. Total revenues decreased \$21,636, or 17%, from the prior year, primarily due to decreases in property taxes and intergovernmental contributions. Total expenditures increased \$3,629, or approximately 3% over the prior year, primarily due to an increase in salary and maintenance expenses.

City of DeWitt
Downtown Development Authority

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2016

Budgetary Highlights

During the year, the Authority made necessary budget amendments to fund unanticipated expenditures. Total revenues budget was decreased by \$9,540 and expenditures budget was increased by \$2,750, with an increase to operating expenditures, and a decrease in capital outlay and advertising and promotion expenditures. Actual expenditures came in \$22,445 under the budget appropriations due primarily to the Authority spending less in operating expenditures than anticipated.

Capital Asset Administration

The Authority's investment in capital assets decreased by \$10,516 during the fiscal year as a result of recognizing depreciation expense. See note C to the financial statements for additional information related to capital assets.

Long-Term Debt

The Authority does not have any long-term debt.

Economic Factors and Next Year's Budgets and Rates

The 2016 taxable values and captured values are anticipated to decrease approximately \$60,113, which will reduce tax revenues by \$1,377. The approved budget for 2015-2016 has revenues exceeding expenditures by \$2,200.

Contacting the Authority

This financial report is intended to provide citizens, taxpayers, customers, and investors with the general overview of the Authority's finances and demonstrate the Authority's accountability for the money it receives. If you have any questions about this report or need any additional information, we welcome you to contact the City of DeWitt, 414 East Main Street, DeWitt, MI 48820.

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE A: DESCRIPTION OF AUTHORITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of DeWitt Downtown Development Authority (the Authority) was created on May 7, 1981, pursuant to Act 197 of the Public Acts of Michigan, 1975 as amended. The Authority has no stockholders, and all monies received are to be used for certain specified purposes in accordance with the City of DeWitt ordinance establishing the Authority.

The primary revenue of the City of DeWitt Downtown Development Authority is "tax increment revenue". The taxing units are required by law to transmit to the Authority that portion of the tax levy of all taxing bodies paid each year on the captured assessed value of all real and personal property located in the development area. The "captured assessed value" is basically defined as the amount in any one year by which the current assessed value of the project area exceeds the initial assessed value.

The financial statements of the Authority have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Authority's more significant accounting policies are described below.

1. Reporting Entity

As required by accounting principles generally accepted in the United States of America, these financial statements are exclusive presentations of the financial condition and results of operations of the City of DeWitt Downtown Development Authority. The Authority is considered a component unit of the City of DeWitt, Michigan, and is discretely presented in the City of DeWitt's (the primary government) financial statements. A copy of the City's audited financial statements may be obtained at the DeWitt City Hall.

2. Basis of Presentation and Measurement Focus

Combined financial statements are provided for the Governmental Fund Balance Sheet and the Statement of Net Position, and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and the Statement of Activities. Descriptions of both presentations included in the basic financial statements are as follows:

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities (the government-wide financial statements) present information for the Authority as a whole.

The government-wide financial statements are presented using the economic resources measurement focus, similar to that used by business enterprises or not-for-profit organizations. Because another measurement focus is used in the governmental fund financial statements, adjustments are reflected on the face of the financial statements.

The statement of activities presents the direct functional expenses of the Authority and the program revenues that support them. Direct expenses are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues are associated with specific functions and include charges to recipients for goods or services and grants and contributions that are restricted to meeting the operational or capital requirements of that function. Revenues that are not required to be presented as program revenues are general revenues. This includes interest and property taxes and shows how governmental functions are either self-financing or supported by the general revenues of the Authority.

City of DeWitt
Downtown Development Authority

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE A: DESCRIPTION OF AUTHORITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

2. Basis of Presentation and Measurement Focus - continued

FUND FINANCIAL STATEMENTS

The Authority uses a single fund to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The governmental fund financial statements present the Authority's individual major fund.

The major fund of the Authority is:

General Fund - The general operating fund is used to account for all financial resources of the Authority which are restricted to expenditures for downtown development purposes.

The government-wide financial statements are presented using the economic resources measurement focus, similar to that used by business enterprises or not-for-profit organizations. Because another measurement focus is used in the governmental fund financial statements, reconciliations are provided that explain the differences in detail.

All governmental funds are presented using the current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance.

3. Basis of Accounting

Basis of accounting refers to the timing under which transactions are recognized for financial reporting purposes. Governmental fund financial statements use the modified accrual basis of accounting. The government-wide financial statements are prepared using the accrual basis of accounting.

Under the accrual basis of accounting, revenue is recorded in the period in which it is earned and expenses are recorded when incurred, regardless of the timing of related cash flows. Revenues for grants and contributions are recognized when all eligibility requirements imposed by the provider have been met. Unearned revenue is recorded when resources are received by the Authority before it has legal claim to them, such as when program fees are received.

Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Authority considers revenues to be available if they are collected within 60 days of the end of the current period. Revenues susceptible to accrual include state and federal grants and interest revenue. Other revenues are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

If/when both restricted and unrestricted resources are available for use, it is the Authority's practice to use restricted resources first, then unrestricted resources as they are needed.

City of DeWitt
Downtown Development Authority

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE A: DESCRIPTION OF AUTHORITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

4. Budgets and Budgetary Accounting

The annual budget of the Authority is prepared by Authority management and approved by the Board. Any revisions to the original budget are approved by the Board before the end of the fiscal year. The budget is prepared on the same modified accrual basis used to reflect actual results. This basis is consistent with accounting principles generally accepted in the United States of America.

5. Cash and Investments

Cash consists of the Authority's checking and savings accounts. Investments consist of temporary investments in certificates of deposit with original maturities of greater than 90 days. Investments are stated at fair value.

6. Capital Assets

Capital assets are recorded, net of accumulated depreciation, in the government-wide financial statements. All assets with a useful life exceeding one (1) year and with a cost of \$5,000 or more are recorded as capital assets. Capital assets are not recorded in the governmental fund. Instead, capital acquisition and construction are reflected as expenditures in governmental funds and the related assets are reported in the government-wide financial statements. All purchased assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Depreciation is computed using the straight-line method over the following useful lives:

Land improvements	20 years
-------------------	----------

7. Deferred Outflows/Inflows of Resources

In addition to assets, the balance sheet/statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of fund balances/net position that applies to a future period and will not be recognized as an outflow of resources (expenditure/expense) until then.

In addition to liabilities, the balance sheet/statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents a consumption of fund balances/net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until then.

Currently, the Authority does not have any items that meet the recognition criteria for classification as deferred outflows of resources or deferred inflows of resources.

8. Comparative Data

Comparative data for the prior year has not been presented in the accompanying financial statements since their inclusion would make the statements unduly complex and difficult to read.

NOTE B: DEPOSITS

In accordance with Michigan Compiled Laws, the Authority is authorized to invest in the following investment vehicles:

1. Bonds, securities, and other obligations of the United States or an agency or instrumentality of the United States.
2. Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a State or nationally chartered bank or a State or Federally chartered savings and loan association, savings bank, or credit union whose deposits are insured by an agency of the United States government and which maintains a principal office or branch office located in this State under the laws of this State or the United States, but only if the bank, savings and loan association, savings bank or credit union is eligible to be a depository of surplus funds belonging to the State under Section 6 of 1855 PA 105, MCL 21.146.
3. Commercial paper rated at the time of purchase within the three (3) highest classifications established by not less than two (2) standard rating services and which matures not more than 270 days after the date of purchase.
4. The United States government or Federal agency obligations repurchase agreements.
5. Bankers acceptances of United States Banks.
6. Mutual funds composed of investment vehicles, which are legal for direct investment by local units of government in Michigan.

Deposits

As of June 30, 2016, the carrying amounts and bank balances for each type of bank account are as follows:

<u>Account Type</u>	<u>Carrying Amount</u>	<u>Bank Balance</u>
Checking and savings	\$ 59,563	\$ 59,714
Certificates of deposit	<u>137,200</u>	<u>137,200</u>
	<u>\$ 196,763</u>	<u>\$ 196,914</u>

The cash caption on the basic financial statements includes \$100 of imprest cash.

There is custodial credit risk as it relates to deposits. In the case of deposits, this is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. As of June 30, 2016, the Authority's accounts were fully insured by the Federal Deposit Insurance Corporation (FDIC).

Credit Risk

State law limits investments in certain types of investments to a prime or better rating issued by nationally recognized statistical rating organizations (NRSRO's). The Authority did not have any investments as of June 30, 2016, that were subject to rating.

NOTE B: DEPOSITS - CONTINUED

Concentration of Credit Risk

The Authority will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the Authority's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Custodial Credit Risk

The Authority will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by limiting investments to the types of securities authorized by the Board and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the Authority will do business in accordance with Board approved policy.

The cash and investments referred to above have been reported in the cash or investments captions on the basic financial statements, based upon criteria disclosed in Note A. The following summarizes the categorization of these amounts as of June 30, 2016:

Cash	\$	59,663
Investments		<u>137,200</u>

NOTE E: DETAILS OF FUND BALANCE CLASSIFICATIONS

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The following are the five classifications of fund balance under this standard:

Nonspendable - assets that are not available in a spendable form such as inventory, prepaid expenditures, and long-term receivables not expected to be converted to cash in the near term. It also includes funds that are legally or contractually required to be maintained intact such as the corpus of a permanent fund or foundation.

Restricted - amounts that are required by external parties to be used for a specific purpose. Constraints are externally imposed by creditors, grantors, contributors or laws, regulations or enabling legislation.

Committed - amounts constrained on use imposed by formal action of the government's highest level of decision making authority (i.e., Board, Council, etc.).

Assigned - amounts intended to be used for specific purposes. This is determined by the governing body, the budget or finance committee or a delegated municipality official.

Unassigned - all other resources; the remaining fund balance after non-spendable, restrictions, commitments, and assignments. This class only occurs in the General Fund, except for cases of negative fund balances. Negative fund balances are always reported as unassigned, no matter which fund the deficit occurs in.

Fund Balance Classification Policies and Procedures

For committed fund balance, the City of DeWitt Downtown Development Authority's highest level of decision-making authority is the Authority Board of Directors. Formal action that is required to be taken to establish a fund balance commitment is a resolution of the Authority Board of Directors.

For assigned fund balance, the Authority Board of Directors has not approved a policy indicating who is authorized to assign amount to a specific purpose. As a result, this authority is retained by the Authority Board of Directors.

The City of DeWitt Downtown Development Authority has not adopted a policy that defines the order of usage for fund balance amounts classified as restricted, committed, assigned, or unassigned. In the absence of such a policy restricted amounts will be used first, followed by committed, then assigned, and finally unassigned fund balance.
